

VEX ROBOTICS SUMMER CAMPS 2018

INTRODUCTION TO VEX ROBOTICS

Date & Time: June 4th-8th 8am-11:30 am
June 11th-15th 8 am-11:30 am

Location: Plymouth High School

Instructors Names: Laurie and Jed Wandland **Email:** lwandland@plymouth.k12.in.us

Ages: grades 2-8 **Course Fee:** \$75 **Maximum participants** 20 (minimum 12)

Description: This is for campers with minimal levels of experience with robotics. Campers will spend the week studying and applying concepts in physics, engineering and computer programming. Campers will be introduced to the VEX Robotics (grades 6-8) and VEX IQ (grades 2-5) platforms. Campers will construct a basic robot and program it to follow a maze. They will then modify the robot to participate in a simple game. This is a great way to gain experience before joining the VEX IQ or VEX robotics clubs throughout the elementaries and junior high. Students wishing to sign up for both weeks should contact Mrs. Wandland to discuss this option.

Please fill out the form on the back and mail to: Laurie Wandland
905 E Baker St
Plymouth, IN 46563

or fill out form online at: <https://goo.gl/forms/y7tZ50TbmdMhktM63>
